Research work (Masters)

<div align="center">

A cross comparison of Kinship Terminology:
Angika, Bajjika, Bengali, Hindi,
Magahi and Maithili

</div>

Guide: Dr. Abhinav Kumar Mishra, H.oD BHU.

About the paper:
        The research work had been done for the comparison of kinship terms in the languages spoken in the district of Bihar. The main objective of this research is to determine

different kinship terminology used in Angika, Bajjika, Bengali, Hindi, Magahi and Maithili Kinship Relation. The collection of data is from different speakers from different parts of Bihar. All the candidate where native speakers and where of different age group.

For having several respondents this research tried to collect data from the students who have a keen knowledge of linguistics and mother tongues. The collection of data has been done with the help of a pre determined set of questionnaires which was provided by CIIL Mysore and made some changes in the questionnaites to enhance it with some extra terms used in Bihar, this search had been done through the snowball-non-random sampling procedure, and further Consulted several books and used the internet as a secondary source of data

The objective of the study was to determine the different Kinship Terms used in Angika Bajjika, Bengali, Hindi, Maithali and Magahi languages. The major finding of the research is regarding the etymology of different Kinship terms and morphological differences berween the terms.
